Average number of clinical hours we deliver each month to those in need of counseling services: 517

Minimum number of days per week clinicians provide care within local non-profit agencies to their clients: 3

Number of hours of outpatient individual, marital, family and group counseling our certified counselors and psychotherapists provided across Eastern North Carolina in the past six months: 3,205

Number of families and individuals we have served: 595

Less than ½
The percentage of adults in North Carolina with a mental illness who receive the treatment they need: 46%

Our Continuing Commitment
For over 17 years, the clinicians at our Eastern Region have been providing faith-integrated psychotherapy to individuals in the eastern part of the state. Offices are located in Greenville, Rocky Mount, and Kinston. We are excited to share we will be opening a satellite location in Greenville at Third Street Education Center, 600 West 3rd Street, this fall.
Total number of children we have provided counseling for year-to-date in our offices: 74

Number of valued relationships we have with local religious organizations: 22

Almost 40% - The percentage of residents in Eastern North Carolina counties combined that reported serious mental health conditions last year: 88

Why invest in the behavioral health of our community? 1 in 4 people in North Carolina will be affected by a mental health issue in 2017. Access to the care they need will improve health, restore balance, unite people and strengthen our community.

PERSONAL RELATIONSHIPS

Blue skies and warm temperatures are welcomed signs of renewal and hope for many this time of year. But sadly, not everyone’s spirits lighten as daylight extends. Some report feeling hopeless with no way out. We know because we hear these stories multiple times a day. For some, the sadness may be brief, while others may have been dealing with it for years. Our role: to bring light to and restore hope for these individuals.

Our work is our calling, and we greatly appreciate the important role our friends and partners play in helping us provide services to hurting and wounded individuals, individuals suffering from depression and anxiety, those struggling with loss and unmet dreams, as well as those in unhealthy and challenging relationships. Your partnership helps us minister to the emotional and spiritual needs of all those we serve.
